The 16th December 1870.

WHITLEY STOKES,
Secy. to the Govt. of India.

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 6th January 1871, and was referred to a Select Committee with instructions to make their report thereon in a month:—

No. 1 or 1871.

A Bill to facilitate the construction of Works of Public Utility from Local and Municipal Funds.

WHEREAS it is expedient to facilitate the construction of works of public utility from Local and Municipal Funds by means of advances to be made by the Government: It is hereby enacted as follows:—

1. This Act may be called "The Local Public Works Act, 1870." *short title.*

2. This Act shall extend to all parts of British India. *Extent of Act.*

3. In this Act— *Interpretation-clause.*

"Advance" means an advance made under this Act and includes all interest "Advance." and charges payable to the Government under this Act on account of such advance:

"Fund" means all monies received or receivable on account of a Local "Fund." or Municipal Fund from which an advance is to be repaid:

"Additional rate" means any rate or cess which may be levied for the purposes of a Local or Municipal Fund from which an advance is to be repaid:

4. If the person administering any Public or Municipal Fund desires to obtain an advance from the Government for the purpose of carrying out, or of assisting in carrying out, a work of public utility at the charge of such

Fund, he may make an application to the Local Government for such advance, and the Local Government, after such enquiry as in each case it may think desirable, if satisfied that such advance should be made, may authorize it to be made, subject to the provisions hereinafter contained.

5. The Governor General in Council shall from time to time make rules for regulating all matters relating to the making of such advances, and the said rules shall provide, amongst other things, for the following :

1. The determination of the Local and Municipal Funds to which this Act shall apply :

2. The works for which advances may be made under this Act :

3. The manner of making applications for advances :

4. The manner of conducting enquiries relative to applications :

5. The manner of recording the conditions on which an advance is made :

6. The manner and time of making advances :

7. The inspection of works carried out under this Act .

8. The instalments by which advances shall be repaid, the interest to be charged on advances and the manner and time of repaying advances and discharging the interest charged on the same :

9. The determination of the charges that may be made in respect of any advance, against the Fund from which such advance is repayable, on account of the share of the costs of the Government in giving effect to this Act :

10. The manner of keeping and auditing the accounts of the expenditure of advances, of the repayment of the same, and of the discharge of the interest thereon :

11. The amount that may from time to time be applied by the Local Government from the public revenues for the purpose of making advances.

The said rules shall be published in the *Gazette of India*, and when so published all Courts shall take judicial notice of them.

6. The person from time to time administering any Fund shall duly repay and discharge such advance to the Government from such Fund, in accordance with the conditions on which it was made, and in preference to all other claims against such Fund.

7. If at any time an advance be not repaid and discharged in accordance with the conditions on which it was made, the Local Government may appoint an officer to take possession of and receive the whole or any specified part of the Fund in the place of the person for the time being administering the same, and thereupon and so long as such officer shall remain so appointed and to the extent directed

by the Local Government, the said person shall have any authority to keep or receive the said Fund, and the receipt of such officer shall be a sufficient discharge for all demands payable on such Fund.

The Local Government may direct such officer to repay and discharge the advance as aforesaid from any amount so received by him. All payment made in that behalf by such officer shall be deemed to be a first charge against the said Fund, and the residue only of any amount so received, after making all such payments, shall be repaid to the person administering the said Fund.

8. If at any time an advance be not repaid and discharged, according to the conditions on which it was made, and if such advance has been made subject to the condition that an additional rate shall be levied to provide for due repayment and discharge of the advance, and if the person administering the Fund fails to levy such rate in the manner required under the said rules, the Local Government may order him to do all things needful for the levy of the said rate, and may appoint an officer to levy and receive the same.

An officer so appointed shall, so far as he shall be authorized so to do by the Local Government, and for the purpose of levying and receiving such rate, exercise all or any of the powers commonly exercised by the person administering the Fund in the place of such person; and so long as such officer remains so appointed and to the extent of the authority given to the said officer by the Local Government, such person shall cease to exercise the said powers.

An additional rate levied and received under this section shall be dealt with as though it had been received under the section next preceding.

9. No advance under this Act shall exceed six times the gross income of the Fund received during the year next preceding that in which the advance is authorized by the Local Government.

10. No person administering any Local Municipal Fund who is not authorized by some special law to borrow money on the security of such Fund shall borrow money on any security otherwise than in accordance with the provisions of this Act.

STATEMENT OF OBJECTS AND REASONS.

The Government of India has recognized the importance of facilitating to the utmost the promotion of local works of improvement, and come to the conclusion that a system somewhat similar to that established under the English Public Works Loan Acts may be introduced in India with much advantage. The Government will make advances, to be repaid with interest in term of years, for works of certain classes, the public utility of which was duly ascertained. A certain maximum sum would be placed at the disposal

hand of the Local Governments, to be applied in making such advances, on which they would operate, the power of extending the advances to new objects being limited by the obligation not to exceed that sum, so that when the whole authorized sum was once advanced, the earlier loans must be paid off before fresh ones could be made.

It has been ruled, however, more than once recently, that it is not desirable to give the local bodies who deal with local or municipal revenues independent powers of borrowing, and that, when for any special reason it may be expedient that funds should be borrowed for local objects, the Government itself should lend the money. This course has been followed in several cases.

But in most of these cases there is no means of giving the Government a legal lien on the revenues on the security of which the loans are made. A municipal body or a person administering local revenues has no power to do more than deal with the revenue as it is received, and cannot give any valid pledge that the income of future years shall be applied in a particular way, unless under express legislative authority, which certainly has no existence in the case of most of the Local Funds in India. When the last law regarding municipalities in the North-Western Provinces, Act VI. of 1868, was passed, the power of borrowing was deliberately rejected by the Government of India and the Legislative Council.

The present Bill has therefore been prepared in the Public Works Department in order to provide for the making of advances of public money for works of public utility to local or municipal bodies, obtaining at the same time valid security for their repayment from the funds at the disposal of such bodies.

Provided further that all reports by such delegated Officer shall be submitted to the Engineer before they shall be forwarded to the Collector or any other authority, and that no such report shall become binding or conclusive for one month after it shall have been so submitted.

STATEMENT OF OBJECTS AND REASONS.

THE attention of Government was drawn in 1868 to the injuries which had been sustained in the district of the 24-Pergunnahs from inundation, owing to certain obstructions which had been erected in a drainage channel, and the removal of which the magistrate stated could not be effected until the requisite legal formalities had been complied with; admitting at the same time that the removal of the obstructions was necessary for the public good, and it was considered that the existing law was not sufficiently stringent to meet such cases.

The opinion of qualified local officers was called for as to the points on which the present Embankment Act requires amendment, and in giving effect to those amendments it is deemed expedient to consolidate the existing laws for the acquisition of land, for the construction of embankments, and for their maintenance.

The objects sought to be attained by the modifications proposed in the existing laws are to extend the provisions of the Act so as to include within their operation the drainage of tracts of country which may be intimately connected with embankments; to include under the definition of "embankments" works which, though not embankments, are strictly accessories to embankments and without which it is impossible to secure the stability of the latter; to provide for the removal of impediments to drainage, and for the construction of works necessary to the drainage as well as to the protection from inundation of any land; to give greater facilities of action in cases when delay may be attended with grave and imminent danger to life and property; to provide compensation for injury or loss to individuals caused by such action; to secure the more effective maintenance of private embankments, and to determine more equitably the mode in which the cost therefor incurred should be recoverable from the parties liable to pay the same, or from those benefited by such works; and lastly, to secure by more stringent penalties, embankments, and drainage works from wilful injury.

To render the Act more complete, the provisions of the existing laws for the acquisition of land required for works of the description specified in the Act have been incorporated therewith.

The Government would make advances, to be repaid with interest in a term of years, for works of certain classes, the public utility of which was duly ascertained. A certain maximum sum would be placed at the com-

mand of the Local Governments, to be applied in making such advances, on which they would operate, the power of extending the advances to new objects being limited by the obligation not to exceed that sum, so that, when the whole authorized sum was once advanced, the earlier loans must be paid off before fresh ones could be made.

It has been ruled, however, more than once recently, that it is not desirable to give the local bodies who deal with local or municipal revenues independent powers of borrowing, and that, when for any special reason it may be expedient that funds should be borrowed for local objects, the Government itself should lend the money. This course has been followed in several cases.

But in most of these cases there is no means of giving the Government a legal lien on the revenues on the security of which the loans are made. A municipal body or a person administering local revenues has no power to do more than deal with the revenue as it is received, and cannot give any valid pledge that the income of future years shall be applied in a particular way, unless under express legislative authority, which certainly has no existence in the case of most of the Local Funds in India. When the last law regarding municipalities in the North-Western Provinces, Act VI of 1868, was passed, the power of borrowing was deliberately rejected by the Government of India and the Legislative Council.

The present Bill has therefore been prepared in the Public Works Department in order to provide for the making of advances of public money for works of public utility to local or municipal bodies, obtaining at the same time valid security for their repayment from the funds at the disposal of such bodies.

R. STRACHEY.

STATEMENT OF OBJECTS AND REASONS.

This Bill has two primary objects, one, to consolidate the law relating to Pleaders, Mukhtárs and Revenue Agents, the other, to amend that law so far as it relates to agreements between certain legal practitioners and their clients.

In Bengal, the North-Western Provinces, the Panjáb and Oudh, the law on the subject is contained in three Acts (XX of 1865, XXIX of 1865 and IX of 1866) : in the Presidencies of Madras and Bombay it is contained in Acts I of 1846, XX of 1853, Madras Regulation XIV of 1816, and Bombay Regulation II of 1827, chapter VI; in the Panjáb, Act IV of 1866 (sections ten, eleven, twelve, forty-four and fifty-one) contains some special provisions as to Pleaders in the Chief Court and their fees; and in British Burma the Recorders' Courts Act XXI of 1863 (sections sixteen, seventeen and eighteen) contains similar provisions. The Central Provinces and all British Burma outside the local limits of the Recorders' jurisdiction appear to be devoid of any law on the subject.

The present Bill consolidates and extends to the whole of British India such of the provisions of Acts XX of 1865 and XXIX of 1865 as appear to be generally applicable to the country.

With regard to agreements for remuneration between clients and their legal advisers, Act XX of 1865, section thirty-nine, permits such agreements to be made, and declares that they shall not be enforced otherwise than by regular suit.

This provision, which has been held to place such agreements on the same footing as an ordinary contract between private persons, has, for obvious reasons, not worked satisfactorily. A flagrant instance of the evil of the present law is furnished by the recent case of *Nuthoo Lall v. Budree Pershad*, 1 Allahabad Reports 1; and though the High Court there held that it was not the duty of the lower Courts to decree (as they had done), on mere proof of the contract, the enforcement of an extortionate bargain between a pleader and his client, the legislature should not leave so important a rule to depend on the decision of a single High Court. The Bill repeals the section in question, and replaces it by a set of provisions modelled on the recent English Statute 33 & 34 Vic., Cap. 28 (*to amend the law relating to the remuneration of Attorneys and Solicitors*), sections four, six, seven, eight, nine, eleven, thirteen and fourteen.

Section thirty-three of the Bill declares that pleaders, &c., may make agreements as to their remuneration, but that the amount agreed on shall not be paid until the agreement has been examined and allowed by an officer of the High Court or of the District Court. The Court is empowered either to reduce the amount or to order the agreement to be cancelled. The agreement (section thirty-four) will exclude further claims in respect of the business therein referred to. Provisions relieving the pleader, &c., from liability for negligence will be void (section thirty-five). No suits are to be brought on such agreements, but on petition of either party the Court may enforce or set it aside (section thirty-six). The Bill then declares void (a) purchases by a pleader of his client's interest in future suits or in unsatisfied decrees, and (b) agreements by which the pleader stipulates for payment only in the event of success. Provision is made (section thirty-eight) for the case of the pleader's death or incapacity, and the client is empowered (section thirty-nine) to change his pleader notwithstanding such agreement.

The other novel provisions of the Bill are only two.

At the recommendation of the Government of Bengal, all Mukhtárs are restored to the privilege of appearing, pleading and acting in Criminal Courts, which they formerly enjoyed under Act XX of 1865, and Mukhtárs heretofore admitted and enrolled in Lower Bengal as Revenue Agents are empowered (section seven) to appear and act in suits in Munsifs' Courts under Bengal Act VIII of 1869 (*to amend the procedure in suits between landlord and tenant*).

Penalties are provided (section forty-five) for Advocates, Pleaders and Mukhtárs removed or suspended by a High Court who practise after such removal or during such suspension.

If the proposed work is to be executed by an officer of Government, the applicant, before the commencement of the work, shall enter into a written agreement to defray the expenses of, and incident to, making such road-way, or of making and closing or removing such water-course or dam. In any case of emergency the officer in immediate charge of an embankment, subject to such general instructions as he may receive from the officer in charge of the embankments of the District, or from the Engineer, may cause a temporary water-course to be made through such embankment.

After the expiration of one month after the posting of such notice, the Engineer shall consider the proposed work and any objection thereto, and in case he shall be of opinion that no injury to the public or to individuals not consenting to the proposed work could result therefrom, he shall certify his opinion to the Collector, who may thereupon, unless he shall differ in opinion from the Engineer, give to the applicant permission by a license under his hand.

XXXVIII. Every person who shall be permitted to erect such embankment shall be deemed bound to keep such embankment in repair.

XXXIX. Specifications of the work and estimates of the expenses which may be required for the maintenance or improvement of embankments, drainage channels, or other works or repairs executed under the provisions of this Act, with costs for which any person is wholly or in part chargeable, shall be prepared as soon after the rains in each year as may be practicable. If the Engineer concur with the Collector, he shall pass orders accordingly; if he differ, the case shall be reported to the Commissioner, whose decision shall be final. When the objection shall have been finally disposed of, or, if no objection be preferred, when a full month shall have elapsed from the date of notice, the Collector shall proceed to levy the amount from the parties liable to pay the same, by any process which is or may for the time being be in force for the recovery of arrears of Government revenue.

XLI. Whenever the Engineer shall be of opinion that the removal of any houses, huts, or other buildings situated between a public embankment and the river is necessary, he shall make a report to that effect, accompanied by a detailed statement of the houses, huts, or other buildings to be removed, to the Collector of the District in whose jurisdiction the land on which such houses, huts, or other buildings stand is situated, and the Collector shall report the same to the Lieutenant-Governor of Bengal, in order that proceedings may be taken under the provisions of the said Act X of 1870, for obtaining possession of such houses, huts, and buildings, and the ground on which they stand. Provided always that in case the Engineer be of opinion that the delay required by such proceedings is likely to be attended with grave and imminent danger to life or property, it shall be lawful for him forthwith to cause such houses, huts, or buildings to be removed, and in such case such houses, huts, and buildings and the ground on which they stand, shall, for the purposes of this Act, be deemed to have been taken in execution of the provisions of this Act.

Provided further that all reports by such delegated Officer shall be submitted to the Engineer before they shall be forwarded to the Collector or any other authority, and that no such report shall become binding or conclusive for one month after it shall have been so submitted.

STATEMENT OF OBJECTS AND REASONS.

THE attention of Government was drawn in 1868 to the injuries which had been sustained in the district of the 24-Pergunnahs from inundation, owing to certain obstructions which had been erected in a drainage channel, and the removal of which the magistrate stated could not be effected until the requisite legal formalities had been complied with; admitting at the same time that the removal of the obstructions was necessary for the public good, and it was considered that the existing law was not sufficiently stringent to meet such cases.

The opinion of qualified local officers was called for as to the points on which the present Embankment Act requires amendment, and in giving effect to those amendments it is deemed expedient to consolidate the existing laws for the acquisition of land, for the construction of embankments, and for their maintenance.

The objects sought to be attained by the modifications proposed in the existing laws are to extend the provisions of the Act so as to include within their operation the drainage of tracts of country which may be intimately connected with embankments; to include under the definition of "embankments" works which, though not embankments, are strictly accessories to embankments and without which it is impossible to secure the stability of the latter; to provide for

the removal of impediments to drainage, and for the construction of works necessary to the drainage as well as to the protection from inundation of any land; to give greater facilities of action in cases when delay may be attended with grave and imminent danger to life and property; to provide compensation for injury or loss to individuals caused by such action; to secure the more effective maintenance of private embankments, and to determine more equitably the mode in which the cost therefor incurred should be recoverable from the parties liable to pay the same, or from those benefited by such works; and lastly, to secure by more stringent penalties, embankments, and drainage works from wilful injury.

To render the Act more complete, the provisions of the existing laws for the acquisition of land required for works of the description specified in the Act have been incorporated therewith.

STATEMENT OF OBJECTS AND REASONS.

DURING certain religious festivals at the town of Pooree and other places in Orissa, the lodging-houses to which pilgrims resort are much overcrowded, and are in many respects wholly unsuited for human habitation. The sanitary arrangements urgently required for preserving the health of the large number of pilgrims are altogether wanting, and much disease and mortality has arisen in consequence, and has been spread throughout the towns and districts through which the pilgrims pass on their return. It is therefore proposed to pass an Act for the regulation of the lodging-houses, and for raising by fees for licenses on the owners of such houses a sum which shall be taken as a contribution to the conservancy fund of the town of Pooree. The fund it is also intended to increase by other measures unconnected with the Bill, and it is hoped that by these means such sanitary improvements may be undertaken at the towns in which the shrines are situated, and on the roads leading to these towns, as shall tend materially to check the sickness and disease so fatal to the pilgrims.

LEAVE AND ALLOWANCES.

MINT AND CURRENCY.

No. 104.—The 11th January 1871.—The Governor General in Council is desirous of affording such increased facilities for the conversion of Currency Notes as can be given without imposing on the Government the cost of making remittances of specie.

With this view, it is notified that, so far as may be practicable, due regard being had to the primary obligation to discharge in cash all Notes at the place of issue and at the principal Office of Issue of the Presidency, the coin reserve at each Office of Issue will be held available for cashing Currency Notes of any Circle.

The amount up to which each Office of Issue is prepared to cash the Notes of other Circles will be notified daily at such Office for public information.

It is hoped that the arrangements now made will admit of Notes of all Circles being ordinarily convertible at the Offices of Issue in the interior, and at one at least of the Presidency towns; if cannot, however, be expected that the Offices of the two great towns, Calcutta and Bombay, between which places there is an active exchange, will, under ordinary circumstances, be able at the same time to cash Notes other than those which by law they are bound to cash on presentation.

It is further notified that the Head Commissioner of Currency at Calcutta and the Commissioners at Madras and Bombay have been authorized to sell drafts at their discretion on such Offices of Issue as have accumulations of coin which it is desirable to reduce. Particulars as to the places on which drafts are available from time to time can be learnt on application to the Officers named.

Circular Orders by the High Court
of Judicature at Fort William in
Bengal.

From F. B. PEACOCK, Esq., Registrar of the High Court of Judicature at Fort William in Bengal, to all Zillah Judges and Judicial Commissioners, and Judges of Small Cause Courts,—(No. 37, dated Calcutta, the 22nd December 1870.)

(CIVIL SIDE.)

THE Court directs that, until the rules contemplated in the Court Fees' Act (VII. of 1870) shall have been published, adhesive Court fee stamps be received in lieu of cash payments for Peons' fees in all the Civil Courts of the Regulation and Non-Regulation Districts of Bengal, and that a Memo. book be kept up in each Court showing the value of the stamps put in as is done with regard to the stamps used for plaints and appeals.

By order of the High Court,

F. B. PEACOCK,
Registrar.

From F. B. PEACOCK, Esq., Registrar of the High Court of Judicature at Fort William in Bengal, to the Superintendent of Stationery,—(No. 3816, dated Calcutta, the 17th December 1870.)

(CIVIL AND CRIMINAL SIDES.)

WITH a view to enable the Civil and Criminal Authorities subordinate to Civil and Sessions Judges to make Periodical Returns to the latter in such forms as shall be available for the preparation of the Quarterly Returns enjoined on

- Forms, Civil and Criminal.*
A. Statement of Civil work in the Court of Subordinate Judge or Moonsiff, as the case may be.
B. Statement of appeals before the Courts of Subordinate Judges.
C. Statement of miscellaneous work. (Two forms bear this letter, one for Subordinate Judges, the other for Moonsiffs.)
D. Statement of offences reported and persons tried.

such Judges by C. O. No. 31, dated 4th November last, the Court have prepared *slip forms* (A, B, C, & D) as per margin, of which specimens are sent herewith, and direct me to request you will be so good as to provide at once a sufficient supply of the same for the use of Subordinate Judges and Moonsiffs as well as of District Magistrates and Sub-divisional Officers.

2. As regards the *Civil forms* (A, B, & C), I am to point out that Statement B, which relates to appeals only, will not be required for Moonsiffs whose Courts are purely Courts of original jurisdiction: of this form, therefore, a smaller supply will suffice. Specimens of the three forms above

mentioned in both Bengali and Oordoo* are sent herewith. These Returns will be submitted by the various subordinate Courts to the Judge monthly. Each Officer will therefore require twenty-four as a year's supply, i.e., one for despatch and one for record in his Office each month. To this number six more may be added to meet contingencies, accidents, &c. A year's supply therefore to each Subordinate Civil Officer should not exceed thirty copies.

3. Form D, which is *Criminal*, will be required by Sub-divisional Officers, and a specimen in Bengali and Oordoo is accordingly forwarded.

4. As the above Return will be required to be made quarterly, and as two copies will be necessary for each Officer, one for his Office draft and the other for the despatch copy, eight copies would be necessary, to which might be added four copies to provide for accidents and other contingencies. It will therefore be sufficient if twelve copies of each form are provided by you as a year's supply for each Officer requiring them.

5. For your information and guidance in applying the above principle, and with a view to check local indents, I am to append hereto a list showing the number of Subordinate Judges and Moonsiffs in each Judgeship, as well as the number of Magistracies and sub-divisions subordinate to the High Court.

6. In requesting you in the first paragraph of this letter to lay in a sufficient stock of these statements, the Court are particularly anxious to avoid a very large stock of Vernacular slips being at once printed. It is their intention to direct Judges and Magistrates, in making their indents, to specify the number of Slip Statements that they will require in English and in the Vernacular, and, after these forms have been in use a short time, you will probably not find much difficulty in estimating with tolerable exactness the number of both kinds which you will require to keep in store.

7. I am to remind you, in conclusion, that all indents from Subordinate Judges and Moonsiffs are to be submitted through their superior the District Judge, as provided in paragraph 3 of C. O. No. 16, dated 17th June 1870.

I have, &c.,
F. B. PEACOCK,
Registrar.

P. S.—A set of these forms when printed or lithographed should be sent for record in this Office.

CIRCULAR MEMO. No. 7.

Copy forwarded to all Zillah Judges and District Magistrates for information and guidance, with the request that, in making their indents upon the Superintendent of Stationery, they will pay particular attention to the instructions given to that Officer in the 4th paragraph of the annexed letter, and to invariably inform him of the number of Slip Statements required by them in English and the Vernacular.

By order, &c.,
F. B. PEACOCK,
Registrar.

* Note.—The only Oordoo Judgeships are Bhangulpore, Gya, Patna, Sarun, Shahabad, and Tirhoot; the rest may be supplied with Bengali forms.
